Managing your discount requests across all your manufacturer partners is time-consuming. Juggling complex processes across disparate platforms takes you away from what you do best - delivering quality care to your patients. Imagine requesting your 340B Program discount at the moment you dispense a drug and never having to track packages and accumulation anymore.

Eliminate drug discount request uncertainty

Kalderos Request is a secure and intuitive tool that enables providers to request drug discounts at the point of sale.

Request payment from manufacturers on one single platform

Request, and its manufacturer companion tool, Pay, enables providers to work with many manufacturers and states on a single platform to prevent noncompliance.

Avoid delays in getting your discounts

Get your 340B Program discount at the moment you dispense a drug and make packages and accumulation a thing of the past.

A secure tool to request drug discounts at the point of sale

Benefits

Cash payment for discounts

Get direct payments for 340B discounts from multiple manufacturers instead of credit toward future purchases.

Transparency throughout the discount cycle

Gain a clear line of sight into your discount requests. And with up-to-date reporting, you'll never doubt the status of your claims.

Request discounts by units — not packages

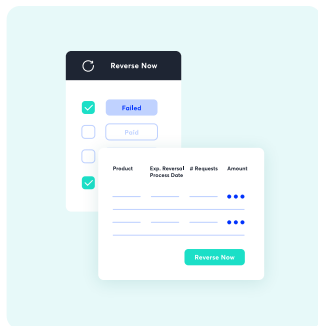

Request your 340B Program discount when you actually dispense a drug, eliminating the need for accumulation of a whole package.

Preparation for audits

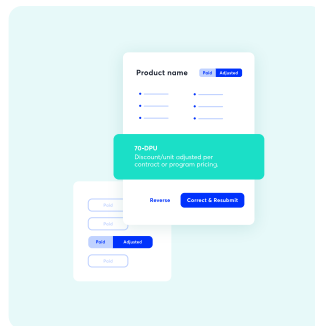

Support your compliance recordkeeping with a single source of truth for all your 340B dispenses, regardless of pharmacy or 340B administrator.

Key features

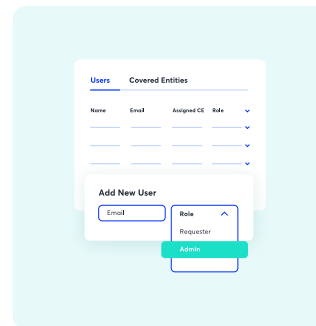

Easily reverse eligible dispenses

With Request, you can work with manufacturers to correct and resolve incorrect discount requests, ensuring you get the right discount for your claim.

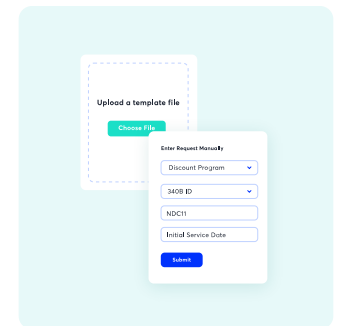

Clear remittance advice

View detailed information with each payment you receive, including which requests were paid, not paid and a clear explanation why.

Seamless collaboration

Don't manage programs alone. Invite and collaborate with other members of your organization, as well as outside partners, like TPAs, to request discounts.

Flexible request methods

Manually request discounts in the Request tool or upload an Excel template to do batch requests.
