

340B Pay is here

Hello [REDACTED]

Thank you for continuing to partner with us as we work to enable the 340B Program to work as intended. As we continue that mission, we are excited to announce the launch of 340B Pay and our newest covered entity-facing tool, [Kalderos Request](#).

Request streamlines the way 340B covered entities will receive their 340B discount on drugs dispensed at their contract pharmacies and eliminates the risk for duplicate discounts to occur. After placing the 340B eligible prescription transaction into Request, manufacturers will then review and pay 340B discounts through a third-party payment partner directly to your covered entity.

We have emailed your authorizing official, as listed in the HRSA database, to introduce Request and set up your facility's Request account. As part of the account set up, your authorizing official will have the opportunity to add you as a user.

After reviewing the Request [fact sheet](#) and [blog](#) feel free to contact me with any questions or concerns.

[Thank you](#)

Steve Zielinski

Senior Director, Industry Relations
