

December 20, 2021

The Honorable Xavier Becerra  
Secretary  
U.S. Department of Health and Human Services  
200 Independence Avenue, S.W.  
Washington, DC 20201

Dear Secretary Becerra:

On behalf of 852 of the nation's safety-net hospitals serving millions of low-income and rural patients, we are writing to urge the Department of Health and Human Services (HHS) to continue its efforts to stop pharmaceutical manufacturers from unlawfully denying 340B pricing at community-based pharmacies. We call on the federal government to appeal the decision by the U.S. District Court for the District of Columbia (D.C. District Court) that rejected the HHS enforcement actions against two such drug companies or to take other actions in response to that decision. We also ask HHS to proceed with enforcement actions now against other manufacturers that are denying 340B discounts. We applaud the actions your department has taken to date to address these denials and urge further enforcement to ensure that access to 340B savings is protected and preserved.

On May 17, 2021, the Health Resources and Services Administration (HRSA) sent letters notifying six drug manufacturers that their policies violate federal law. The letters made clear that a drug company cannot "place conditions on its fulfillment of its statutory obligation to offer 340B pricing on covered outpatient drugs purchased by covered entities." Rather than comply with HRSA's directive to restore these discounts, the companies have chosen to continue to flout the law and challenge HRSA's violation letters and enforcement actions in four federal courts. Since that time, the number of drug companies imposing unlawful conditions has only grown.

Two federal courts have ruled that drug companies are violating the law and do not have the right to unilaterally impose these types of restrictions on 340B discounts. We urge HRSA to move forward expeditiously with enforcement consistent with those courts' rulings.

A third federal court, the D.C. District Court, found HRSA's interpretation of the 340B statute was incorrect and invalidated HRSA's violation letters to two of these companies, effectively allowing them to continue their unlawful denial of discounts that we rely on to serve our patients. We strongly urge the government to appeal or otherwise respond to the D.C. District Court's decision and continue to press for a restoration of 340B pricing as rapidly as possible.

340B is a lifeline to hospitals caring for low-income patients and those living in rural communities. 340B savings allow us to stretch our scarce resources to serve more patients and offer more comprehensive services without using taxpayer dollars. This is especially vital as we continue to confront the tremendous challenges presented by the COVID-19 pandemic. We strongly urge the government to take the actions described above and continue to press for rapid restoration of 340B pricing.

Thank you for your continued leadership on these matters and for your efforts to protect the 340B program on which our hospitals and patients rely.

Sincerely,
