MDRP

Commercial Managed Care

Medicare Part D

Availability

Coming Fall 2020

Despite stakeholders' best efforts, coordinating multiple drug discount programs across many providers and payers inevitably results in noncompliant discounts - redundancies which cost manufacturers more than $8.5 billion dollars annually. You suspect that this revenue leakage is happening, but how do you combat it? Kalderos Verify can help you identify, confirm and resolve past noncompliant discounts — and see an impact on your bottom line.

Gain clarity on your discounts

See what discounts you've paid, whether 340B Program, MDRP or commercial managed care, all in one platform.

Manage discounts upfront

Identify noncompliant claims prior to paying them, so you only pay the discounts that you should be paying under law and contract.
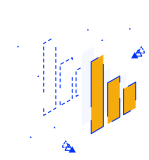

Easily identify and dispute noncompliant transactions

View validation results to identify noncompliance, communicate disputes directly with states and see immediate impact on your bottom line.

Leverage our provider network for good faith inquiries

Collaborate with 2,500 of Kalderos' covered entity partners to identify noncompliant discounts in good faith.

Identify trends in noncompliance

Stop noncompliance before it starts while leveraging the largest labeled dataset related to noncompliant discounts.
